

Maths home learning tasks

Complete the tasks but writing the answers in the exercise books provided. You don't need to print out this document.

If you are struggling to find the time to sit down and support your child there are lots of videos that your child can watch that will support their learning. These are not necessarily linked to the current topic but are still useful tools for learning. You could also use these for additional learning if you would like something else to do.

Here are some links where you can find videos:

Measuring time

This week we will learn about days of the week and thinking about today, yesterday and tomorrow.

Here are some videos of songs you can sing to practise the **days of the week**.

<https://www.youtube.com/watch?v=36n93jvjkDs>

<https://www.youtube.com/watch?v=oKqAblcwFOA>

This is a video on the BBC bitesize website explaining days of the week with games linked.

<https://www.bbc.co.uk/bitesize/topics/zrqqtfr/articles/ztjg39q>

Practise spelling the days of the week (don't forget they need a capital letter because they are proper nouns/names).

Maybe you could create days of the week cards and practise shuffling them, then putting them back in the correct order.

Each time you work in your exercise book try writing the long date at the top. If you find this tricky get someone to write it for you and you could copy it.

Read the very hungry caterpillar or watch it (<https://www.youtube.com/watch?v=75NQK-Sm1YY>).

Write down each day in the story and what happened on that day (you could video your child talking instead writing if writing is too difficult). If you were the very hungry caterpillar, what would you eat on each day?

Pick a day or a page from the very hungry caterpillar book and think about what day was it yesterday? What day will it be tomorrow? Pick a different page. What is he eating today? What will he eat tomorrow? What did he eat yesterday?

Months of the year

What are the months of the year? What month is your birthday in? Do your family have different birthday months?

https://www.youtube.com/watch?v=CEE6PG_AYfA

Can you order the months of the year?

Use this website to have a look at what happens in the different months.
