

## Maths home learning tasks 29.6.20

Any answers that need recording can be recorded in the exercise book provided. You don't need to print out this document.

### Day 1

#### Related facts

Watch this video: <https://vimeo.com/413568461>

Practise adding numbers from the 10 times table.

Use this website to practise number bonds to 100 in 10s.

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Use the sheet to practise this. It is posted onto Seesaw (you can record straight onto the sheet with the edit/ pen tool). If you cannot access this, I have put it onto the school website.

### Day 2

#### Two digit add and subtract ones

Watch this video: <https://vimeo.com/414671240>

Practise finding one more and one less by splatting a number on splat square and then splatting one more and one less than that number.

<https://www.primarygames.co.uk/pg2/splat/splatsq100.html>

Use the sheet to practise this. It is posted onto Seesaw (you can record straight onto the sheet with the edit/ pen tool). If you cannot access this, I have put it onto the school website.

### Day 3

#### Two digit add and subtract tens

Watch this video: <https://vimeo.com/415461655>

Practise finding ten more and ten less by splatting a number on splat square and then splatting the ten above it and below that number.

<https://www.primarygames.co.uk/pg2/splat/splatsq100.html>

Use the sheet to practise this. It is posted onto Seesaw (you can record straight onto the sheet with the edit/ pen tool). If you cannot access this, I have put it onto the school website.

### Day 4

#### Add two-digit numbers

Watch this video: <https://vimeo.com/415699218>

Find two two digit numbers from the splat square. Practise drawing the numbers in tens and ones. Are there more than ten ones all together? Do we need to exchange any for tens? If not then add the tens together and then add the ones. Then practise adding them using the formal method.

Use the sheet to practise this. It is posted onto Seesaw (you can record straight onto the sheet

with the edit/ pen tool). If you cannot access this, I have put it onto the school website.

## Day 5

### Subtract a two-digit number

Watch this video: <https://vimeo.com/415699365>

Find two two-digit numbers from the splat square. Remember you can only take a smaller number away from a bigger number. Write your number sentence using the two numbers, the subtract symbol and the equals symbol. ( - =)  
Practise using the methods from the video to solve your number sentences

Use the sheet to practise this. It is posted onto Seesaw (you can record straight onto the sheet with the edit/ pen tool). If you cannot access this, I have put it onto the school website.

If you finish these activities quicker than the 5 days you can go onto these websites to find extra activities:
