Friday 2nd November 2018

MESSAGE FROM MISS HURFORD

This week has been one of reflection for our children. They have been learning and thinking about the anniversary of the Great War and its impact on both the children and adults from Sampford Peverell.

Steph Packham has been helping throughout the school with poppy creations, which we will be exhibiting at the church. The children have also made poppies which are being displayed at the Pannier Market in Tiverton.

Have a good weekend!

Miss Hurford

Family Points

Aisthorpe

Peverell

Dinham

Powlett

Mathematicians of the Week

Seacole: Stafford

Lewis: George H

Drake: James

Writers of the week

Seacole: James F

Lewis: Bevin

Drake: Rosie

7th January—5th April
18th—22nd February

Summer

23rd April—24th July
27th—31st May

Our Christian Values are:

Teamwork

Forgiveness

Respect

Honesty

Kindness

Faith

First Steps and Darwin

This week Foundation and First steps have been enjoying learning about Bonfire night and fireworks. We have created some amazing fireworks pictures, exploring a range of different media and also made up some rather noisy fireworks music to accompany them. Today Mr Curnow made a bonfire with us and we all sat round and sang our 'Bonfire night' song, talking about how to stay safe around fireworks.

Seacole

This week Seacole Class have been starting to think about World War One across Theme and English in preparation for our Remembrance events next week. This has involved lots of thoughtful conversations about how life was as a child in that time; I've seen some fantastic engagement and critical thinking! In Maths, we have been learning why addition sentences can be written in any order but subtraction sentences cannot...we have been puzzling it out all week. We were also lucky enough to have a visitor for our Glo-Week learning, who showed us how important it is to be seen and safe while out in the dark. We all enjoyed wearing our bright clothing on Wednesday!

Lewis

Lewis class have been really enjoying finding out about WW1 this week. We have been travelling back in time to find out what life was like for children 100 years ago (during the war). The children did some brilliant drawings of what classrooms would have looked like!

In maths, we have been working hard estimating and using the inverse to solve missing number problems!

Drake

In Drake class we have been investigating our own past both in class and by looking at some of the amazing homework projects children created over half term (see website - Homework for pictures). We have used our knowledge as well as some achieve photographs to influence our poetry in English this week. Miss Keary has been busy working with the children to complete their own designs of the Learning Power animals - using needlework skills as they would have done 100 years ago.

In maths we have now moved onto multiplication and all of the different ways that calculations can be solved or represented - if you are brave you might want to ask them about the bar model or the part-whole model and how they are used.

Please continue to look at the school website for information do pictures about what we have doing in and out of class and if you have any suggestions of what you would like to see on the website in the future, please contact me.

Remembrance service at church, 9th November at 10:45, all are welcome.

In the office we have some really lovely Poppy merchandise that is for sale. Please feel free to see Mrs Greenwood if you would like to buy something, or make a donation.

Let's Talk More Everywhere in October - November

Why?

Young children can't block out background noise like we can. Having some quiet time with you every day will help them learn to:

- tune in and listen to you
- concentrate
- understand words and sentences
- use words themselves
- build the skills they need to read and write

Try not to have noise, or other distractions in the background:

Spend some time, every day, playing and talking with your child with no noise in the background. You will need to turn off the telly / tablet / radio while you do. You may even need to close the door to block out noise, to make it easier for your child to concentrate and listen while they are playing.

When it's quiet, your child will be more likely to notice everyday noises (like dogs barking or a noisy bus) - point these out and talk about what they are.

Make sure you are face to face with your child when you talk so they can see the way your mouth moves - this way they can hear the sounds and see your mouth move at the same time, giving them the chance to learn new words more easily.

Sampford Tuck Shop. As of Monday 5th November the Tuck Shop will be back up and running. You can buy items such as Yogurts, crackers, raisins and cheese

Mathletics. Thank you for your understanding in regards to Mathletics over the past few weeks. We are hoping to get this resolved shortly.
