

## Maths home learning tasks

Complete the tasks but writing the answers in the exercise books provided. You don't need to print out this document.

If you are struggling to find the time to sit down and support your child there are lots of videos that your child can watch that will support their learning. These are not necessarily linked to the current topic but are still useful tools for learning. You could also use these for additional learning if you would like something else to do.

Here are some links where you can find videos:

<https://www.bbc.co.uk/bitesize/subjects/zjxhfg8>

### Telling the time (o'clock)

Suggested activities:

Have a go at making a clock. In this video it shows you how to make a clock using a paper plate. If you don't want to use a paper plate, you could draw around a plate on a piece of paper instead. If you don't have a split pin for the clock hands you could just use your finger to hold them down in the middle whilst you are using it. Be careful writing on the numbers by making sure they are evenly spread out just like on a real clock.

<https://www.youtube.com/watch?v=c7DM2xmaf4c>

Draw attention to time. Mention the time at different points in the day. For example, you could say, 'it's 5 o'clock – time for tea,' or 'it's 7 o'clock – time for a bath.'

Have a go at showing the o'clock times using this game. Show how time passes each hour.
