

Maths home learning tasks

Complete the tasks but writing the answers in the exercise books provided. You don't need to print out this document.

Position and direction:

Step 1)

What can you see around you? Complete the table.

In front of me	Behind me	To the left of me	To the right of me

Look around your house. Use the words: 'top', 'middle', 'bottom', 'above' and 'below' to describe the position.

The _____ is above _____.

The _____ is below _____.

In between _____ and _____ is _____.

Above _____ is _____ and _____.

There is nothing between _____ and _____.

Step 2)

How many different ways can you describe the position of the 2p coin?

Step 3)

Play a game of I spy but give your partners clues by saying what is above it, below it, what it is between, what is to the right or left.

Step 4)

Build a model and write instruction on how you did it using position language. You could use building blocks, Lego, junk modelling or anything around the house!

Step 5)

Create a treasure hunt by hiding something around the house. Create instructions for your partner to find the treasure using the positional language from the previous days. You could even draw a treasure map!

For extra activities to have a go at:

Practise your number bonds to 10 or 20 by playing hit the button
