

Drake Class
Year 6 Maths Home Learning Activities
Week beginning Monday 01/06/20

Volume

Also, the **Oak Academy online lessons** have 5 sessions – including video, explanations and independent tasks
There are not any Volume lessons for Y6 but you could work on any subject area you feel you need to improve on:
<https://www.thenational.academy/online-classroom/year-6/maths#subjects>

Step 1: Understand and visualise volume

If each cube has a volume of 1 cm^3 , find the volume of each solid.

Step 2: Reasoning with blocks

Amir says he will need 8 cm^3 to build this shape.

Dora says she will need 10 cm^3 .

Tommy is making cubes using multilink.
He has 64 multilink cubes altogether.

How many different sized cubes could he make?

He says,

If I use all of my multilink to make 8 larger cubes, then each of these will be 2 by 2 by 2.

Who do you agree with?

Explain why.

How many other combinations can Tommy make where he uses all the cubes?

Step 3:

Complete the sentences for each cuboid.

The length is: _____

The width is: _____

The height is: _____

The area of the base is: _____ \times _____ = _____

Volume = The area of the base \times _____ = _____

Calculate the volume of a cube with side length:

4 cm

2 m

160 mm

Use appropriate units for your answers.

The volume of the cuboid is 32 cm^3 .

Calculate the height.

Step 4:

Rosie says,

You can't calculate the volume of the cube because you don't know the width or the height.

2 cm

Do you agree?

Explain why.

Calculate the volume of the shape.

How many different ways can you make a cuboid with a volume of 48 cm^3 ?

Step 5:

1.

Volume =

2.

Volume =

3.

Volume =

4.

Volume =

Compare the volume of the following cuboids.

5.

Volume =

Volume =

6.

Volume =

Volume =

Cube A and cuboid B have the same volume.

Not to scale

Calculate the missing length on cuboid B.

Additional areas to work on:

Play on Hit the Button - focus multiplication tables.

Work through the areas of an arithmetic paper (which can be found on the KS2 Maths Organiser on the school website) Look at the Calculation Policy on the school website under 'Curriculum' and then 'Maths' for help in how to support + - x and ÷
